KOREA BUILD WEEK 2023

Experience Latest Technologies and Products in Construction, Architectural and Air Cleaning Industry

KOREA BUILD

The biggest building & construction exhibition in Korea which brings together cutting-edge technologies and products related to building materials, construction equipment, interior, architectural design, and building facilities.

MODULAR & PRE-CON KOREA

The only off-site construction expo in Korea which focuses on modular & precast concrete, and digital construction technology in construction and civil engineering.

SMART-CON SAFETY KOREA

The smart-con safety exhibition will focus digital technologies dealing with safety management in the construction industry.

BUILDING FIRE SAFETY KOREA

Building fire safety exhibition will cover all fire safety equipment and technologies applied to building and construction sites.

FACILITIES MANAGEMENT EXPO

Exhibition focusing on building maintenance, management products and technologies for facility, hygiene, security, quarantine.

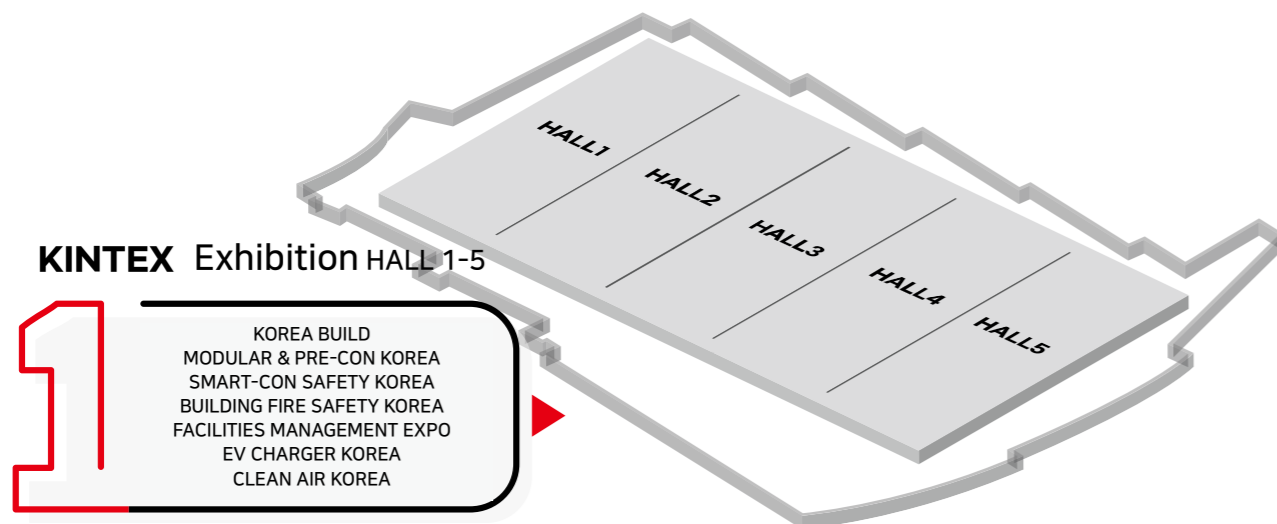

EV CHARGER KOREA

Specialized in the EV charger infrastructure. It will promote the actual business performance of both exhibitor and consumers and boost supply of the EV charging facilities.

CLEAN AIR EXPO

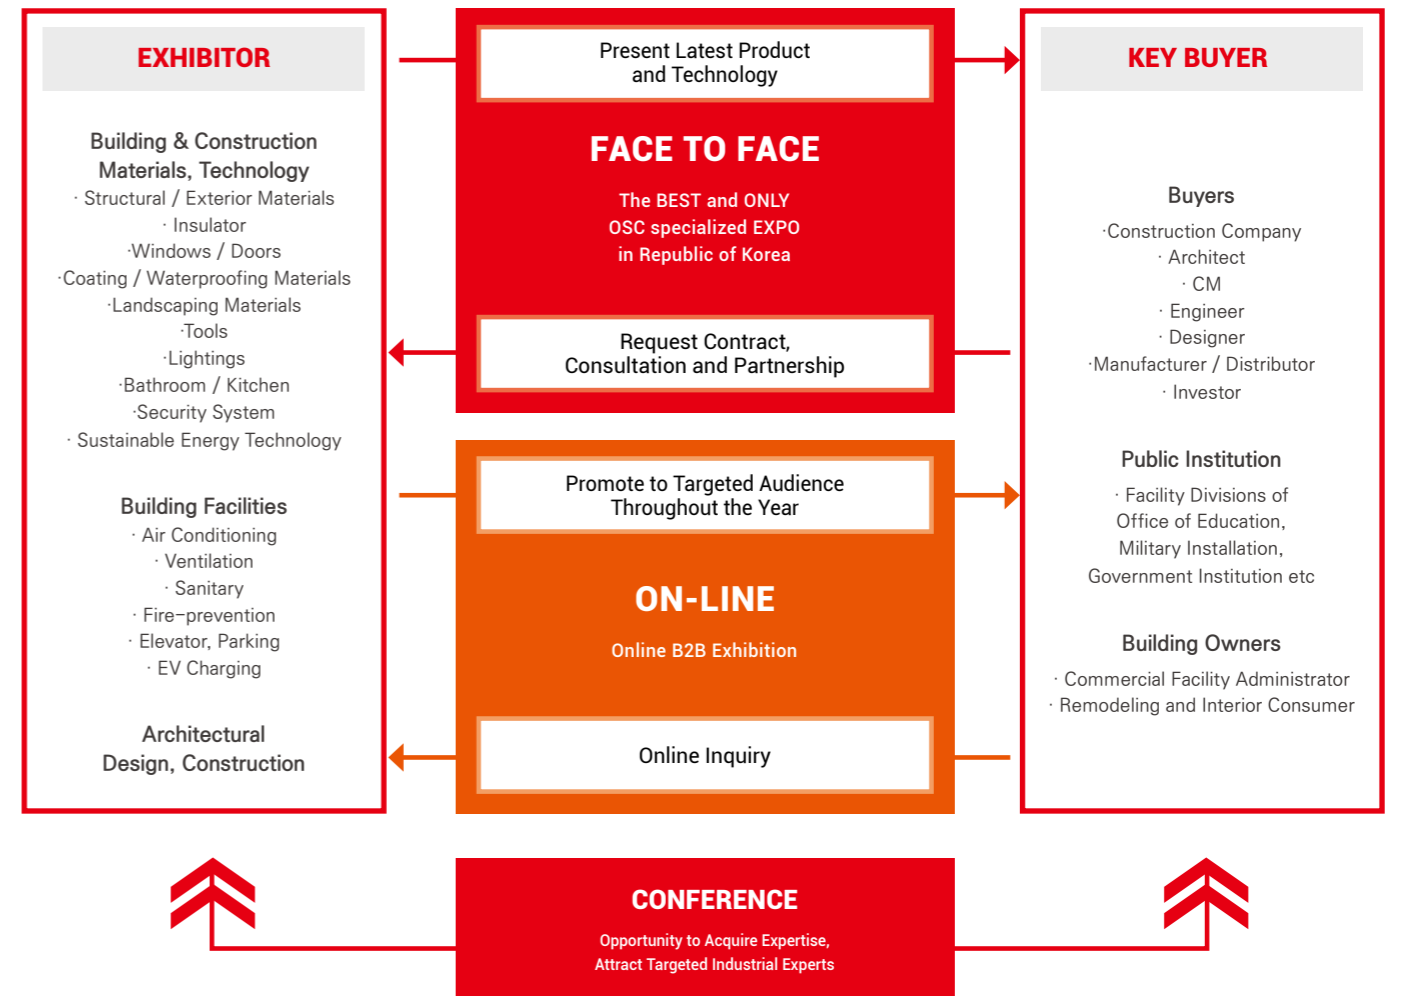

Exhibition for the air cleaning industry to introduce new products, technologies and leading air cleaning solutions.

KOREA BUILD WEEK has kept pace with Korean construction and architecture history since 1986 and now keeps up with its global trends worldwide. It has expanded its field to air cleaning solutions, off-site construction, fire prevention, digital construction safety management, facility management, and EV charger infrastructure possibly collaborating with the construction and architecture industry. This effort for inter-industrial collaboration will create strong synergy and maximize the efficiency of the exhibition.

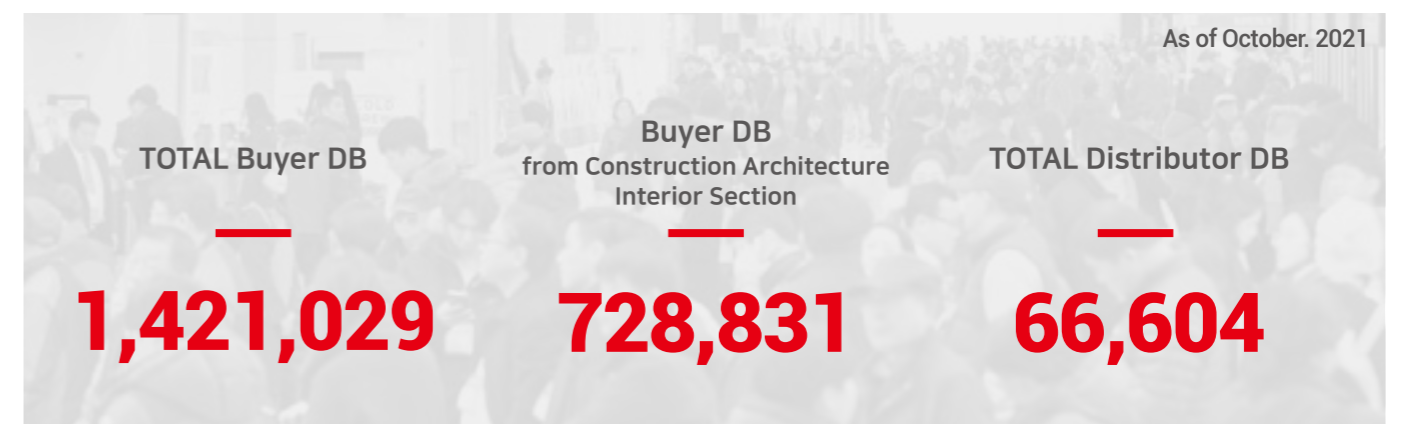

The Exhibition & Conference Connect Products, Technologies, Information and People

KOREA BUILD WEEK is the Korean largest building & construction exhibition covering building materials, construction technologies and interior designs. Gain access to more than 70 sessions of conferences and seminars and get great opportunities to share advanced information with international industry experts.

Big Data Competitiveness

Provide matching with potential customers who exhibitors strategically targeting, based on big data of the buyers, and even offer business matching counseling on-site.

Conference

KOREA BUILD WEEK offers opportunities for sharing the information and network between different companies in construction & interior design field. It may be your first stage, first site for information sharing, and first chance to establish a new vision for the development of the industry. Visit us, 'KOREA BUILD WEEK', the platform for architectural & interior design information sharing and the trend-leading exhibition.

BUILD TECH CONFERENCE

We hold the seminars where you can discuss and share cutting-edge technologies and stream of the industries with diverse entities including Ministry of Land, Infrastructure, and Transport, Ministry of Environment, Seoul City, Goyang City, and Korea Land & Housing Corporation.

BUILD DESIGN CONFERENCE

We suggest the insight that may be connected with your business as well as introduce the domestic/international trend of construction and design. We not only introduce marketing issues, branding, trend, lifestyle, and interior design but also spread the business know-how of leading companies. The domestic/international managers, interior designers, and information providers participate in the seminars to lead the sessions for the marketers and C-Level.
