INDIA INTERNATIONAL HOSPITALITY EXPO 2023

India International Hospitality Expo was envisioned and brought to life to create a hospitality show that showcases the best in Indian hospitality suppliers and service providers.

The country had so many fragmented hospitality shows and with the growth of hotels, restaurants, cloud kitchens and homestays, a unified show that brought everything and everyone from the hospitality supply and servicing side was much needed.

Over the past 5 years, the show has catered to buyers from across India as well as 20 other countries and has hosted the best kitchen equipment, furniture, tech, amenities, serveware and food and beverage companies from across the globe.

With the 6th edition, which is, IHE 2023, we're aiming to serve a larger buyer base than ever before, both domestically and internationally.

"This is an excellent show. It brings together all the suppliers and hoteliers from across scales and helps us source according to the changed needs of the customers."
